

**FOR IMMEDIATE RELEASE**

**DRESSER MASONEILAN AND DRESSER CONSOLIDATED HIGHLIGHT INNOVATION AT  
UPCOMING ACHEMA INTERNATIONAL EXHIBITION MAY 11 — 15  
*New Valve Technologies Showcased during Event in Frankfurt, Germany***

HOUSTON, Texas (May 6, 2009) Dresser Masoneilan, a global leader in the manufacture and support of process control valves and solutions, and Dresser Consolidated, a leading supplier of reliable pressure relief valve solutions, will be showcasing ground-breaking technology at the Achema International Exhibition May 11 through 15 in Frankfurt, Germany. Both Dresser, Inc. brands will be displaying the latest innovations in durable process control and safety relief technology as well as diagnostic software and environmental compliance solutions in Hall 10.2, Booth K41 – K43.

“This is one of the premiere events for chemical engineering and process industries,” Gaetano Napolitano vice president of sales in EMEA region says. “It is a great opportunity to meet with our customers, listen to their challenges and to collaborate on solutions. Dresser Masoneilan and Dresser Consolidated have always worked closely with customers to develop products, services and technologies that address their needs.”

Among the many products that visitors will be able to learn about during the show is the Smart Valve Interface (SVI®) II Emergency Shutdown Device (ESD) digital valve positioner. It automates critical On/Off shutdown valves without disrupting valve function. Plus, it delivers state-of-the-art diagnostics and reporting capabilities. Also on display will be the Dresser Masoneilan Camflex® II rotary valve, a universal control valve designed with an Emissions Free (EF) seal to help customers meet strict environmental emissions standards.

Additionally, Dresser Consolidated will be showing the 1700 Maxiflow high pressure safety valve as well as the 3900 pilot operated safety relief valve. Engineered for reliable performance, easy maintenance and efficient operation, these trusted solutions are used around the world in a range of critical applications.
