

FOR IMMEDIATE RELEASE**DRESSER DEMONSTRATES NEW, INNOVATIVE SMART VALVE OPEN TECHNOLOGY AT HONEYWELL USERS GROUP EVENT**

HOUSTON, TX (June 12, 2009) – Dresser Masoneilan, an international leader in the design, manufacture and support of process control valves and solutions, will be exhibiting its SMART® valve technology integrated with Honeywell's process automation systems at the Honeywell Users Group held at the JW Marriott hotel in Scottsdale, Arizona, June 15 – 19. As a partner in Honeywell's PKS Advantage™ collaborative marketing program, this is the sixth year that Dresser Masoneilan is a sponsor of the conference that draws industry professionals from around the world.

"Honeywell and Dresser Masoneilan have collaborated to design solutions that fit seamlessly in demanding applications," says Sandro Esposito, global product marketing manager. "This event offers a great opportunity to share this technology with our customers."

Event attendees are invited to visit the Dresser Masoneilan kiosk during the show to see the company's integrated valve solutions such as hardware integration with the SVI II AP (Smart Valve Interface), the SVI II ESD (Emergency Shutdown Device with partial stroke test controller), and the Fieldbus Valve Positioner (FVP®). Additionally, Dresser Masoneilan will demonstrate the integrated ValVue Suite software solutions including: ValVue® ESD for Emergency Shutdown Valve management, ValVue HART for commissioning of SVI® family of products, and ValVue OVD (Online Valve Diagnostic) for the latest in online valve diagnostics and monitoring open technology. ValVue is the first solution on the market capable of diagnosing any control valve equipped with HART or Foundation Fieldbus enabled devices. Integration of Dresser Masoneilan's latest technologies will improve efficiencies in process control management through equipment health monitoring and life cycle management of final control elements.
